

# Podcast: Quantum Computing with Laura Wright and Rebecca Keating

We are delighted to launch our [new podcast series](#) this week. The series will cover key areas relating to all aspects of commercial law as well as addressing other topics currently facing the Bar and the wider legal sector.

Episode 1 is now available to listen to online as well as on [Spotify](#). Our first episode is brought to you by [Laura Wright](#) and [Rebecca Keating](#) who explore some of the key concepts of quantum computing and highlight implications that lawyers need to be aware of. You can [listen to the full episode here](#).

For those that do not have a Spotify account, our podcast is also available on our RSS feed:
