

#LitigationHacks for cryptocurrency fraud

[Matthew Lavy](#) will be speaking at the latest BrightTALK webinar on 20th October 2020 alongside Danny Quah of Providence Law Asia LLC.

Matthew and Danny will address court-based tools in England and Singapore that victims of cryptocurrency fraud can consider using to recover their stolen assets. Such tools include:

- Proprietary, “Black Swan” and “Persons Unknown” injunctions
- Cross-border discovery via the blockchain or digital ledger and against third party intermediaries e.g. banks and crypto-platforms

The speakers will also seek to foreshadow future developments in the asset-recovery space.

Please note this event has now ended but a recording is [available online](#).
