

Webinar: Common NEC issues explained

[Jessica Stephens QC](#) will join Driver Trett on 10th November for their second autumn webinar. The webinar will take the form of a mock adjudication and focus on explaining common NEC issues including defective work, key dates, late changes to Works Information and delay damages.

This webinar will be of interest to all those who work in construction and engineering, particularly those who are involved in commercial management, project administration and dispute resolution.

Date: 10th November

Time: 11:00 – 12:00

Register: [By email](#)
